

ENCINLINE1/48 OPTICAL FIBRE IN-LINE ENCLOSURE (Supporting upto 48 Fibres)

This secure IP68 in-line enclosure offers the ability to terminate 48 fibres housed in a strong robust ABS enclosure for outdoor applications.

The enclosure has heavy duty secure latches and a rubber seal that ensures the unit is closed tightly once installed. The two splice trays can receive up to 24 fibres per tray and there are four cable entry points for incoming and exiting fibre cables.

Integrated cable tie points secure the cable into the enclosure.

Features:

- Supports up to IP68
- Supports up to 48 fibres
- Hinged splice tray assists installation
- Supplied with fibre transit tubing wall fixings and tie wraps

Applications:

Aerial, Buried or Pipe-lined,
